Location: Ho Chi Minh City

Summary

Frontend engineer with 6 years of experience building SaaS dashboards, CRM portals, and ecommerce applications. Strong in React, TypeScript, Next.js, design systems, performance optimization, and mentoring junior engineers.

Experience

Senior Frontend Developer, CloudCRM Vietnam, 2021-2026

- Built a multi-tenant CRM dashboard using React 18, TypeScript, Redux Toolkit, React Query, and Vite.
- Implemented reusable component library with accessibility checks, responsive layouts, and Storybook documentation.
- Improved dashboard initial load time by 42% using code splitting, memoization, and bundle analysis.
- Integrated REST APIs for lead management, pipeline analytics, billing, and role-based access control.
- Added Playwright E2E tests for core sales workflows and React Testing Library tests for shared components.
- Reviewed pull requests and mentored 4 junior frontend developers.

Frontend Developer, ShopNow, 2018-2021

- Developed ecommerce checkout and product listing pages with React and JavaScript ES6.
- Worked with product managers and designers to refine UI requirements and edge cases.
- Integrated authentication, payment status, error states, and loading states.
